95122 Project was divided into three content committees:

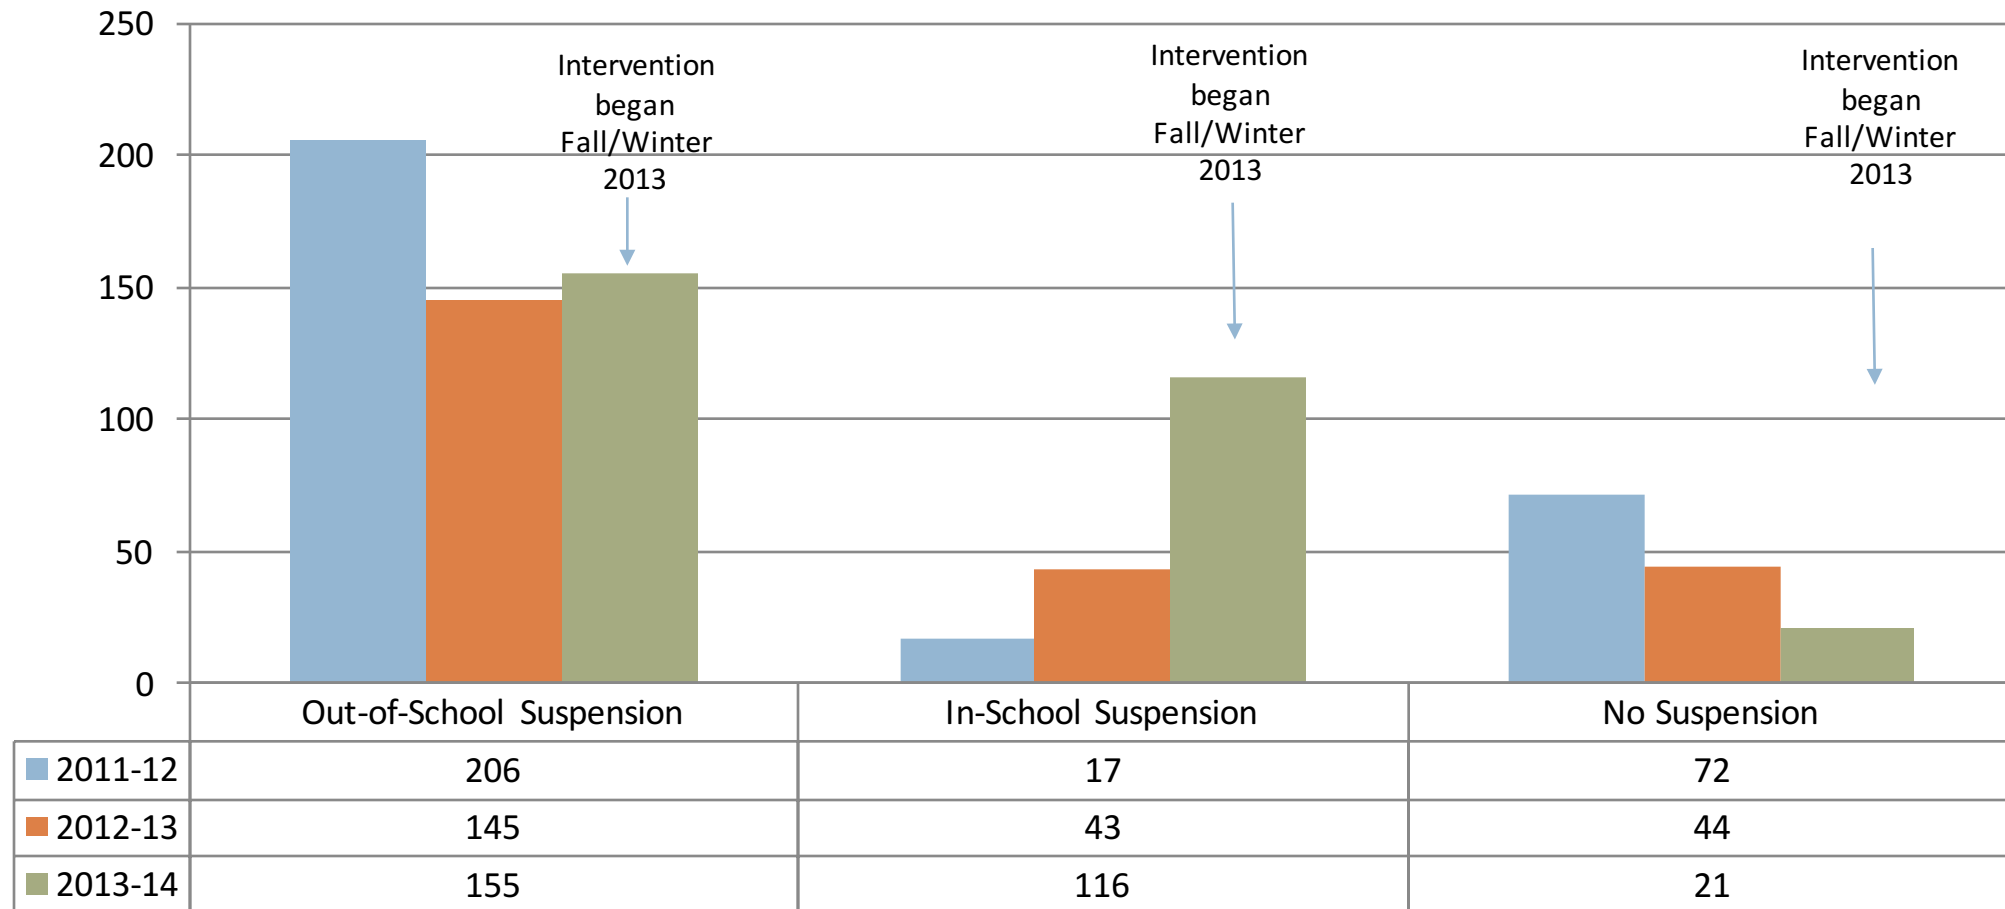

(1) Violation of Probation (VOP) Work Group

(2) School Based Citations Work Group

(3) Arrest Policy and Practice Work Group

- The goals of the content committees were to:
 1. Reducing the use of out-of-school suspensions, through the creation of an in-school suspension program that provides enrichment classes from the community based organizations.
 2. Reducing the use of school based law enforcement citations through the increased use of coordinated mental health and substance abuse services.
 3. Reducing the use of Violations of Probation for youth home on probation within the zip code.
- After several meetings the School Based Citations and Arrest Policy Workgroups merged efforts, around the “No Citation” Policy

Overfelt High School - Suspension by Type AY2012 - 2014

School Related Violation/Arrest Policy Work Group

- In AY2012-2013, Overfelt High School had 77 total citable incidents. 47% of those incidents were for youths “under the influence”. Furthermore, suspension was the resolution for 71% of youth with citable drug or alcohol related incidents.
- To address the presenting behavior, the Work Group decided to implement a “no citation” policy. (See Handout)
- If a drug related incident is brought to the attention of school staff, rather than contact law enforcement, staff would handle the incident by utilizing school-based resources which would include in-house suspensions.
- During these in-house suspensions youth are provided with a two-hour seminar focused on addressing the behaviors that led to their suspension. These seminars are provided by community-based organizations. Youth are also referred to voluntary counseling services as appropriate.

Violations of Probation (VOP) Work Group

- The Electronic Monitoring Program procedure was revised to provide a three-step contact plan to address violations.
 - Direct outreach by a probation officer
 - Contact with the youth's attorney to assist with compliance
 - Youth's referral to a community based program by his/her probation officer.
- The warrant procedure was revised to require an officer to follow a three-step contact plan for any youth with 20 hours of unauthorized leave or who has absconded.
 - Community-based organization assists in locating the youth
 - Probation officer seeks assistance from the youth's attorney
 - Probation Officer will schedule parte review and complete a declaration of his attempt and a warrant will be requested.
- Concurrently the Probation Department was working with the W. Haywood Burns Institute to draft and implement a VOP Response Grid that would lay out intervention/service options for Probation Officers to use with non-compliant youth.
