

# FOSTERING YOUTH TRANSITIONS 2023

STATE AND NATIONAL DATA TO DRIVE FOSTER CARE ADVOCACY

## DATA TABLES

THE ANNIE E. CASEY FOUNDATION

The data tables include all variables from the *Fostering Youth Transitions 2023: State Profiles* broken out by race/ethnicity. There are three primary data sets that contain information on young people (14+) with foster care experience in the United States.

1. The Adoption and Foster Care Analysis and Reporting System (AFCARS) Foster Care File
2. The National Youth in Transition Database (NYTD) Outcomes File
3. The National Youth in Transition Database (NYTD) Services File.

## TABLE OF CONTENTS

Adoption and Foster Care Analysis and Reporting System (AFCARS) .....	2
Young people in foster care at the end of the fiscal year .....	2
Young people entering foster care during fiscal year .....	29
Young people exiting foster care during fiscal year .....	46
National Youth in Transition Database (NYTD) Outcomes File .....	62
National Youth in Transition Database (NYTD) Services File .....	74

# ADOPTION AND FOSTER CARE ANALYSIS AND REPORTING SYSTEM (AFCARS)

## YOUNG PEOPLE IN FOSTER CARE AT THE END OF THE FISCAL YEAR

### KEY

- N.A.** When state data report 10 or fewer young people in a category, not applicable (N.A.) is used in these tables.
- 0 or 0%** Zero is used when state data report there are no young people in a category.
- A dash is used when a calculation was not possible during data analysis. This can occur when the number of young people in a category is very small.

### NOTES

- In the following tables, data presented are most often the result of *Fostering Youth Transitions 2023* analysis. Please refer to your state's records or to federal AFCARS and NYTD records, to see raw data.
- *Fostering Youth Transitions 2023* examines data for young people ages 14 to 21, except where noted.
- Many of the tables in this document present data disaggregated by race and ethnicity. When interpreting this data, it is helpful to know how this analysis was calculated for states and for the United States. Understand it this way: Of all young people in a racial or ethnic group in the state, what percent were included in a particular measure? For example: Of all Black young people ages 14-21 in foster care in Maryland, 39% experienced two or more foster care episodes (removals).
- For descriptions of the data analysis used in *Fostering Youth Transitions 2023*, please refer to *Fostering Youth Transitions 2023: Source Notes*.
- Data analysis for *Fostering Youth Transitions 2023* was provided by Child Trends.

# ADOPTION AND FOSTER CARE ANALYSIS AND REPORTING SYSTEM (AFCARS)

## YOUNG PEOPLE ENTERING FOSTER CARE DURING FISCAL YEAR

### KEY

- N.A.** When state data report 10 or fewer young people in a category, not applicable (N.A.) is used in these tables.
- 0 or 0%** Zero is used when state data report there are no young people in a category.
- A dash is used when a calculation was not possible during data analysis. This can occur when the number of young people in a category is very small.

### NOTES

- In the following tables, data presented are most often the result of *Fostering Youth Transitions 2023* analysis. Please refer to your state's records or to federal AFCARS and NYTD records, to see raw data.
- *Fostering Youth Transitions 2023* examines data for young people ages 14 to 21, except where noted.
- Many of the tables in this document present data disaggregated by race and ethnicity. When interpreting this data, it is helpful to know how this analysis was calculated for states and for the United States. Understand it this way: Of all young people in a racial or ethnic group in the state, what percent were included in a particular measure? For example: Of all Black young people ages 14-21 in foster care in Maryland, 39% experienced two or more foster care episodes (removals).
- For descriptions of the data analysis used in *Fostering Youth Transitions 2023*, please refer to *Fostering Youth Transitions 2023: Source Notes*.
- Data analysis for *Fostering Youth Transitions 2023* was provided by Child Trends.

Number of Young People 14-21 Entering Foster Care During Fiscal Year 2021

# ADOPTION AND FOSTER CARE ANALYSIS AND REPORTING SYSTEM (AFCARS)

## YOUNG PEOPLE EXITING FOSTER CARE DURING FISCAL YEAR

### KEY

- N.A.** When state data report 10 or fewer young people in a category, not applicable (N.A.) is used in these tables.
- 0 or 0%** Zero is used when state data report there are no young people in a category.
- A dash is used when a calculation was not possible during data analysis. This can occur when the number of young people in a category is very small.

### NOTES

- In the following tables, data presented are most often the result of *Fostering Youth Transitions 2023* analysis. Please refer to your state's records or to federal AFCARS and NYTD records, to see raw data.
- *Fostering Youth Transitions 2023* examines data for young people ages 14 to 21, except where noted.
- Many of the tables in this document present data disaggregated by race and ethnicity. When interpreting this data, it is helpful to know how this analysis was calculated for states and for the United States. Understand it this way: Of all young people in a racial or ethnic group in the state, what percent were included in a particular measure? For example: Of all Black young people ages 14-21 in foster care in Maryland, 39% experienced two or more foster care episodes (removals).
- For descriptions of the data analysis used in *Fostering Youth Transitions 2023*, please refer to *Fostering Youth Transitions 2023: Source Notes*.
- Data analysis for *Fostering Youth Transitions 2023* was provided by Child Trends.

# NATIONAL YOUTH IN TRANSITION DATABASE (NYTD) OUTCOMES FILE

---

## DATA TABLES

### KEY

- N.A.** When state data report 10 or fewer young people in a category, not applicable (N.A.) is used in these tables.
- 0 or 0%** Zero is used when state data report there are no young people in a category.
- A dash is used when a calculation was not possible during data analysis. This can occur when the number of young people in a category is very small.

### NOTES

- In the following tables, data presented are most often the result of *Fostering Youth Transitions 2023* analysis. Please refer to your state's records or to federal AFCARS and NYTD records, to see raw data.
- *Fostering Youth Transitions 2023* examines data for young people ages 14 to 21, except where noted.
- Many of the tables in this document present data disaggregated by race and ethnicity. When interpreting this data, it is helpful to know how this analysis was calculated for states and for the United States. Understand it this way: Of all young people in a racial or ethnic group in the state, what percent were included in a particular measure? For example: Of all Black young people ages 14-21 in foster care in Maryland, 39% experienced two or more foster care episodes (removals).
- For descriptions of the data analysis used in *Fostering Youth Transitions 2023*, please refer to *Fostering Youth Transitions 2023: Source Notes*.
- Data analysis for *Fostering Youth Transitions 2023* was provided by Child Trends.

# NATIONAL YOUTH IN TRANSITION DATABASE (NYTD) SERVICES FILE

---

## DATA TABLES

### KEY

- N.A.** When state data report 10 or fewer young people in a category, not applicable (N.A.) is used in these tables.
- 0 or 0%** Zero is used when state data report there are no young people in a category.
- A dash is used when a calculation was not possible during data analysis. This can occur when the number of young people in a category is very small.

### NOTES

- In the following tables, data presented are most often the result of *Fostering Youth Transitions 2023* analysis. Please refer to your state's records or to federal AFCARS and NYTD records, to see raw data.
- *Fostering Youth Transitions 2023* examines data for young people ages 14 to 21, except where noted.
- Many of the tables in this document present data disaggregated by race and ethnicity. When interpreting this data, it is helpful to know how this analysis was calculated for states and for the United States. Understand it this way: Of all young people in a racial or ethnic group in the state, what percent were included in a particular measure? For example: Of all Black young people ages 14-21 in foster care in Maryland, 39% experienced two or more foster care episodes (removals).
- For descriptions of the data analysis used in *Fostering Youth Transitions 2023*, please refer to *Fostering Youth Transitions 2023: Source Notes*.
- Data analysis for *Fostering Youth Transitions 2023* was provided by Child Trends.
